INTERNATIONAL EDITION

Calatea Green designed by Cristina Celestino for **PIANCA**, the upholstery is made of polyester eco-fiber coming from the recovery of PET plastic mineral water bottles, the shell is made of multilayer wood and the legs of solid wood in FSC® certified Ash. Finally, the fabric covers use a cotton yarn produced with Open End system using 100% recycled material guaranteed by GRS. (Photo by Andrea Martiradonna, Jasmina Martiradonna).

Designed by Patricia Urquiola for **CAPPELLINI**, Ludo, a relaxing armchair with removable covers, has the supporting structure in recycled and recyclable plastic with recycled nylon, leather, eco-leather or fabric made with recycled materials.

Atlas, designed by Antonio Citterio for **FLEXFORM** is an outdoor sofa characterized by a functional and contemporary aesthetic. It consists of a metal aerial structure covered with specific outdoor straps, steel back and armrest and generous padding in polyurethane foam and polyester fiber.

Shaped by an organic development inspired by the form of a soy bean, Eda-Mame, design Piero Lissoni for **B&B ITALIA**, is a furnishing element with a strong impact created by a sculptural design that can give great incisiveness to a space.
